WORK EXPERIENCE

Major Project
July 2015 — April 2016

Developer

Automation of Valuation Center of our university " **Devi Ahilya Vishwavidyalaya** ".This project was aimed to automate and speed up the internal processing of result declaration of approximately 150 courses offered by the university. With the help of portal developed, lakhs of exam copies of various courses could be tracked via university intranet.Major features of this project were text auto-complete, optimum valuer suggestion and quick reminders with notification.

Minor project

Simulating Smartphone Interface

Designed and developed a **smartphone interface** as a minor project using **VISUAL BASIC** .This minor project was the part of the curriculum and aimed to explore the event-driven programming language like VISUAL BASIC. The interface emulated a smartphone. It had all basic screen and phone lock and gestures which a smartphone has. This project could be used for simulation of smartphone interface for beginners.

Engineer's Without Borders IET - DAVV
March 2014 — May 2014

Technical head

Worked on a project for website of **EWB IET-DAVV** on a Content Management System **DRUPAL** . The project aimed to set a prototype and automate the working of **EWB INDIA** student chapters under the guidance of Professor Ashok Agrawal ,the former president of **EWB INDIA**. Drupal 7 (CMS) was used so as to manage all the student

chapter website effectively.

IET Innovation Implementation Incubation
Centre
Candidate

Developed a website on **Library Management** according to the specifications mentioned by IIIIC Recruitment Drive.
